

william garvey furniture designers & makers

william garvey

furniture designers & makers

We have been making furniture and joinery to special order for over 30 years. It is this backbone of cabinet making which enables WG to undertake a diverse range of projects. From design, through manufacture, to installation the company supplies a complete service.

Our work with sinks and baths started in 1977 with an enquiry for a teak butler's sink. This sink is still used daily and is in excellent condition.

With that first piece we realised that something remarkable had happened. This simple, practical object was also beautiful and very satisfying to use.

Since then, this part of our business has expanded to the point where we are able to offer standard items in addition to our own bespoke service.

Our well equipped workshops are based in rural surroundings near Hembury Fort in East Devon, where a combination of advanced techniques and traditional skills are provided to offer one of the finest custom built furniture ranges on the market.

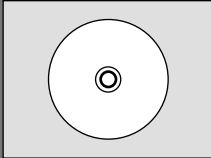

fusion sink [top]

fusion sink [front]

keeping that lasting appeal

A great deal of care and attention goes into the making of these products. We use teak because it's the most stable and durable timber in the world. We use a teak oil specially formulated to resist marking and with our recommended cleaning methods the beauty of the timber will be maintained.

specials

We can manufacture to any size or configuration that you require. We would also be pleased to provide a quotation for any custom made furniture or joinery.
